TWENTY-FIFTH ANNUAL REPORT  
AND STATEMENT OF ACCOUNTS.

# **TWENTY-FIFTH ANNUAL REPORT**

## **OF THE**

### **COMMITTEE OF MANAGEMENT.**

In the preceding Report it was explained that the contents referred to the work of the Hospital for ten months only, as it had been deemed desirable to make the Hospital year end at 31st December instead of the end of February.

In the comparison of work, income and expenditure, the figures in last report where necessary and mentioned herein have been adjusted.

The patients admitted in 1926 numbered 152, 86 Males and 66 Females. The patients under treatment at the end of the preceding period were 6 in number, so that the number under treatment was 158. The number for ten months in 1925 was 125. With a computed addition for two months the number would be 152 against 158 in 1926.

Of 152 patients admitted this year 97 were under 18 years of age, and 3 were over 60 years.

Of the patients under treatment, 27 were admitted with Workmen's admission forms, 20 with Subscriber's recommendations, 5 were Paying patients, 4 were admitted without admission forms, possibly being cases of urgency, 20 were suffering from accidental injuries, and 76 were temporary patients for Operative Treatment, in-patients for one day only. The accidents were from Works 6, others 14.

In the ten months covered by previous Report the Temporary patients numbered 62 out of a total of 125.

In 1926 the beds were in use for 2,559 days, the daily average being 7. In the previous Report for 10 months the daily average was 8.6. Excluding the Temporary patients the average number of days per patient was 22.6.

One patient discharged during the year had been under treatment for 382 days, and another for 262 days.

The Patients discharged numbered 148, the Case Book showing 135 Cured, 2 Greatly Improved, 3 Improved, 4 Relieved, 1 Same Condition, 1 Temporarily withdrawn and re-admitted later, and 2 removed to other Institutions. The deaths numbered 5, one the result of self-injury, and one from accidental injury (immediately on admission). Patients in Hospital on 31st December were 5 in number.

The Operations numbered 111.

In one or two cases treatment was continued by the Medical Attendant and Matron after the discharge of the patients.

The Medical Staff have been assiduous in their attention to the patients under their care and the Committee record high appreciation of the services rendered.

The Nursing Staff under the directions of the Matron have rendered good service.

The industrial conditions of the district have seriously affected the income of the Hospital.

The Total Income for 1926 is £712. By excluding a new item of £36 for Operative Treatment the amount is reduced to £676 as against £1,041 in 1925.

The Workmens' Contributions in previous report were shown as £484. The computed amount for the full twelve months would be £580. In the year 1926 only £280 was received, being £300

short of an estimated full year's contributions. The words "Coal Dispute" are the only words necessary to explain the position.

In 1925 payments for Patients were exceptionally high and totalled £101 more than in 1926. The House-to-House Collection yielded £26 less than in 1925, and Entertainments show a decrease of £29.

The item of £20, the proceeds of the Silver Shield Association Football Competition was increased by a contribution from the Exhibition Match, Maryport National School v. Cleator Moor, which proved to be a popular event.

The Expenditure shows a considerable increase. The total in 1925 for ten months was £750, which with two months added, would make £900. This year the total is £1,137—£237 in excess. This is a considerable increase and it is not due altogether to extraordinary expenses. There has been exceptional expenditure to the extent of £86 chiefly for renewal and repairs of bedding, charges incidental to the change of Matron, the maintenance of the Wireless Set, and the appointment of additional Trustees and the change of Investments. There is also an additional item of £30 incidental to the operative treatment for Tonsils and Adenoids under arrangement with the Cumberland Education Committee, but this is covered by a slightly larger sum included in the receipts and paid by the Education Committee. The expenses are also increased by a Gratuity given to the late Matron Miss Scott.

As shown on a later page of this report the cost of Provisions and Surgical expenses based on the number of beds occupied by patients have considerably increased.

The Five-Valve Wireless Set, mentioned in the Report for 1925, was duly installed and equipped by the Sir W. T. Disney Lodge of Buffaloes, and has given much pleasure to the Patients. The Committee record their hearty thanks to the Society.

The Committee desire to thank the Ladies who undertook the House-to-House Collection, and who were so successful in the difficult circumstances. Every care was taken to avoid appealing to the many families whose bread-winners were out of work. The result was extremely satisfactory.

The warm thanks of the Committee are also awarded to the Promoters of the several Entertainments which have so considerably helped the Revenue in this and preceding years.

It was deemed necessary to appoint additional Trustees. There were only three of the Original Trustees living and one expressed a wish to retire. Consequently five additional Trustees were appointed, viz.: Col. G. J. Pocklington Senhouse, Dr. J. W. Crerar, Mr. John Wharton, Miss Bowness, and Mr. J. D. Shearer.

The necessary Trust Deed was prepared by Mr. Alfred Crerar, Solicitor, and the Trust Securities were transferred to the new Trustees by Messrs. W. B. Mathias and Co., for whose generous services the Committee desire to record their thanks.

During the year an Investment of £500 with the Maryport Urban District Council was repaid, and the money was invested in the purchase of London Midland and Scottish Railway Guaranteed 4 per cent Stock.

# NOTANDA.

---

The business of the Hospital is conducted by a Committee of Management, constituted as follows:—The President, the Treasurer, the Honorary Secretary, ten persons elected by the Annual Meeting, the Medical Practitioners, and one person elected by each group of 50 or more employees who regularly contribute to the funds.

The following are entitled to attend the Annual Meeting, viz. :—Donors of £10 and upwards, annual subscribers for the preceding year, the persons forwarding any church collection or proceeds of an entertainment, the representative of any group of employees making a regular levy on behalf of the funds.

Annual subscribers of £1 1s are supplied with a form of recommendation for admission of patients and one additional form for each two guineas beyond the first guinea.

Workmen who are regular contributors through the works and also members of their families are admitted without further payment. Individual workmen can have similar privileges on payment in advance of 5s per annum.

Paying patients are charged at the rate of 6s per day if living within the hospital area, or 9s per day if living outside the area. For children under 12 years, one-half the above rates are charged.

It is necessary to obtain an admission form for each patient. Workmen contributing at Works can secure same on application where employed. Paying patients must obtain the necessary form from the Honorary Secretary.
